MEMORANDUM FOR THE RECORD

SUBJECT: Control of Ceiling Positions

1. Colonel White wants to hold under his control, as long as possible, the positions not presently permanently allocated to his office heads.

2. Specifically, with regard to the 20 positions he authorized for the Signal Center by transfer from the supplemental programs activities, he wants 20 positions held out of his reserve so that if ultimately he has to use his reserve, he will have 20 positions available to support the supplemental activities of the Office of Communications in the event their staffing approaches ceiling and they require the 20 positions.
